

"Peel Public Health completed dental screening for participating students. A form with the results of the dental screening was sent home with every child screened.

If a child is identified with a dental condition requiring immediate dental treatment, an additional form will be attached for parents to fill in and return to Peel Public Health. The parent may be contacted by a dental staff member. A re-screening may be required.

Please read the form(s) carefully. If you need help filling in the form, call Peel Public Health at 905-799-7700.

If your child did not receive a dental screening and you would like to book an appointment for a dental screening for your child at a Peel Public Health dental clinic, call 905-799-7700."
